MEDISEPT
Perfect disinfection

Velox® Top AF

Spray for disinfection and surface cleaning

Velox® Top AF neutral is an alcohol-based liquid for cleaning and quick disinfection of small surfaces in the medical area (treatment chairs, operating tables, medical equipment and dental tips before the sterilization process). The product has bactericidal, yeasticidal, tuberculocidal and limited virucidal properties. It works against Rota and Adeno viruses.

Product features:

- Active in 30 sec. against Bacteria, Fungi, Tuberculosis, enveloped viruses, Adeno, Rota.
- For medical equipment, chairs, beds, or other difficult to access surfaces. Also for disinfection of dental tips before sterilization and of prosthesis and silicone impressions.
- For use in the medical field, gastronomy, nursing homes, sanatoriums, fitness and SPA salons, hairdressing and beauty salons, massage parlors, kindergartens, schools and for disinfecting surfaces not in contact with food.
- Free from aldehyde and phenol, so it does not discolour disinfected surfaces.
- High material tolerance to ABS and upholstery materials - Famed opinion.
- Possible registration: medical device and biocidal product.

User benefits:

- Guaranteed effectiveness and safety of use.
- High reduction of the infection risk.
- Rapid effect of clean and disinfected surface.
- Can be used on many sensitive materials.
- Refreshing effect.
- Economical in usage.

Velox® Top AF

Application:

Velox® Top AF neutral is an alcohol-based liquid for cleaning and quick disinfection of small surfaces in the medical area (treatment chairs, operating tables, medical equipment and dental tips before the sterilization process) - as a medical device. Also intended for use in the medical field, gastronomy, nursing homes, sanatoriums, fitness and SPA salons, hairdressing and beauty salons, massage parlors, kindergartens, schools and for disinfecting surfaces not in contact with food. It is ideal for washing and disinfecting small and hard-to□reach surfaces such as countertops, tables, door handles, and for hairdressing and beauty equipment and accessories - as a biocidal product. The product has bactericidal, yeasticidal, tuberculocidal and limited virucidal properties. It works against Rota and Adeno viruses. For professional use.

Effectiveness	Standard according EN 14885	Condition	
		clean	dirty
Bacteria	EN 1276	30 sec.	60 sec.
	EN 13697	30 sec.	60 sec.
	EN 13727	30 sec.	60 sec.
Fungi (C. albicans)	EN 1650	30 sec.	60 sec.
	EN 13624	30 sec.	60 sec.
Mycrobacterium Tuberculosis (M. terrae)	EN 14348	30 sec.	60 sec.
Enveloped viruses	DVV/RKI	30 sec.	30 sec.
Rota virus	EN 14476	30 sec.	
Adeno virus	EN 14476	60 sec.	
BVDV Virus	DVV/RKI	30 sec.	

Directions for use:

Spray the surface from the distance of 30 cm covering the whole disinfected area. Spread the liquid using disposable towels and allow to dry. The surface does not need rinsing with water, dries out completely and does not leave smudges. Do not use on alcohol sensitive surfaces (i.e. acrylic glass). Product dedicated for professional users.

Ingredients: active substance in 100 g of the product:

40 g propan-2-ol, 20 g ethanol, 0,39 g amines, n-C10-16-alkyltrimethyldi-, products reaction with chloroacetic acid, 0,25 g didecyldimethylammonium chloride

Packaging units:

1 L spray bottle,
5 L canister

Medical device class II a within the meaning of the Medical Devices Act.

Intended for disinfecting non-invasive medical devices.
